### ABOUT ME

---

Singapore Polytechnic IT graduate with hands-on experience troubleshooting software issues across hardware and software stacks. Foundation in SQL, scripting (Python, JavaScript), and systematic debugging. Comfortable translating operational requirements into technical specifications and producing clear documentation. Seeking Application Support, QA, or Service Desk roles in consultancy or enterprise environments.

### WORK EXPERIENCE

---

**Centre of Excellence in Maritime Safety (CEMS),** 2025 – 2026

*Research Assistant & Software Developer*

- Investigated and resolved performance bottlenecks in a Unity application, achieving consistent 72 FPS through systematic profiling and optimization
- Liaised with maritime subject matter experts to gather requirements, translate operational procedures into technical specifications, and validate functionality through user testing
- Owned the application end-to-end across multiple hardware configurations (Meta Quest 3, bHaptics gloves), with full testing and documentation coverage

### EDUCATION

---

**Singapore Polytechnic,** *Diploma in Information Technology* 2023 – 2026

- CGPA: 3.55 / 4.0
- Certificate in IoT (electives in Python, sensor interfacing, 5G/AIoT).

### SKILLS

---

#### Databases

SQL

#### Scripting

Python, JavaScript, Bash (basic)

#### Tools

Git, Postman, VS Code, Linux command line

#### Familiar with

REST APIs, HTTP debugging, Unity, React/Next.js, C#

#### Methods

Systematic troubleshooting, root cause analysis, technical documentation, stakeholder communication, cross-browser testing

### PROJECTS

---

**Linux-themed Portfolio Website,** *Personal Project*

- Validated responsive behavior across browsers and screen sizes (Chrome, Firefox, Safari, mobile, and desktop) via systematic cross-browser testing
- Debugged interactive components, including draggable windows and an in-browser terminal emulator, documenting reproduction steps for each fix
- Maintained version control with Git, including a clear commit history for traceability
